• EARLY BACKER ONE-PAGER • PREORDERS OPEN

Thin enough to forget. *Smart enough to remember.*

Sottile Card is a 3 mm aluminium AI voice recorder that snaps to the back of your phone. Press once — get transcripts, summaries and action items.

<3 MM • ~30 G • 20+ H RECORDING* • EST. SHIP Q2 2027

Calls and conversations

Room mic for meetings; a bone-conduction sensor captures both sides of phone calls — no speakerphone.

AI notes you'll use

Speaker-labelled transcripts, summaries in your format, action items with owners, and "Ask Sottile" across everything.

Private by design

One press, never always-on. Amber light when recording. Encrypted, never used to train AI, delete anytime.

Back us early

The honest timeline

Our backer promise

- Full refund any time before your card ships.
- A build update every month — good news and bad.
- If dates move, you hear it from us first.
- Your recordings are yours: no ads, no model training.
